

# Gitty-Up & Grow

## Capability Statement

### BUSINESS SUMMARY

We design and build raised-bed, patio and deck containers. Our custom gardening solutions are tailored toward homeowners, senior living facilities, and apartment complexes, where space is limited and accessibility is an issue. Our "Sustainable Gardening Solutions" are low maintenance, high yield, organic, and home-grown!

### CAPABILITIES

We custom create, build and install various planters, raised-beds and patio containers, for home, apartment, senior living facilities or VA hospitals. Maintenance Plans and Use/Care Instructions are also available.

- Sales and Service
- Special Orders
- Hand Selected Planters for Local Area/Climate
- Wheel-chair accessible planters. Built on-site
- Patio containers, Install/set-up
- Maintenance Plans, Available

### EXPERTISE

- Julia has 30 years of experience with all things "Gardening" and is a graduate of the University of Guelph, Ontario Canada with a degree in General Horticulture.
- She has volunteered over 3,100 hrs. to the Laramie County Master Gardeners and as a Junior Master Gardener Instructor.
- She helped change and develop new study guides from Texas A& M class materials, to fit Wyoming's harsh growing climate.
- Worked with Laramie County Extension Service and Stride Learning Center, to create, plant and grow sensory gardens (feel, touch, smell and taste) with earth boxes, for their handicapped students.
- Currently, Julia is promoting self-watering, patio, container gardening, for people on -the-go with very little time, for those folks living in senior or adult care facilities, who just want fresh without the fuss gardening; All with organically, homegrown, horticultural therapy benefits.
