What Are The Growing Problems in this Region? Well...

- *We're High- Above 6,000 feet*
- *We're Dry- 15" Annual Rainfall (same as most Deserts)*
- *We're Windy- up to 65+ mph (Hurricanes start at 75mph)*
- *We Challenge the #1 Position for Hail in the Country!
(Front Range #1)*
- *We Have Poor, High Alkaline, Clay Soils. And...*
- *We have a short growing season- Approx. 90 frost-free
days a year!*

So... Yes there are challenges to growing gardens in Wyoming and surrounding area, but it CAN be done. Let's work together to create sustainable- healthful and tasty landscapes for your yard and I'll help you do it! All it takes is some elbow grease, some Patience and some Realistic Expectations.
